

**JUST PRINTED ... "TELESCOPES YOU CAN BUILD"
ANOTHER EXCITING BOOK BY SAM BROWN**

**HOW TO MAKE 27 DIFFERENT TELESCOPES
AND 10 USEFUL TELESCOPE ACCESSORIES**

Here is a completely new how-to-do-it book for the amateur builder. Written in language that anyone can understand, it gives step-by-step building instructions. Each article is profusely illustrated. Includes detailed, illustrated instructions for building 19 astronomical telescopes ranging in size from a 1.6" equatorial refractor to a 6" reflector. We can supply you with most of the optical parts.

Eight terrestrial telescopes are also described. Two have 300mm lens systems . . . two are designed for variable power (zoom). Accessory items such as an illuminated eyepiece, sun diagonal, erect image diagonal, etc., are described.
No. 9065, 36 pages (8 1/2" x 11"). Only 75¢ Ppd.

"HOW TO USE YOUR TELESCOPE" . . . AMATEURS

**RATE THIS BOOK A "MUST HAVE"
FEATURES MOON MAP, SKY SHOW, DIAGRAMS,
SELECTED SKY OBJECTS AND MUCH, MUCH MORE**

If you now own, or if you plan to buy a telescope, here's a down to earth introduction to astronomical telescopes and the stars. Ideal for the beginner and full of useful information for any amateur. Written by Sam Brown in clear, simple language . . . profusely illustrated and non-technical. You will refer to it often. Paper bound.

LEARN ABOUT:

- Observing the planets
- Comparing the planets
- Finding sky objects
- Astronomical photography with your telescope
- Observing the sun
- Splitting doubles
- Telescope arithmetic
- Sky sweeping
- Dawes Limit

FULL INFORMATION ON:

- Telescope power
- Selecting your telescope
- Light gathering power
- Field of view
- What eyepiece is best
- Collimation & adjustment
- Telescope performance . . . what to expect
- Equatorial mounts . . . how to use them
- Barlow lenses and power boosters

No. 9055, 32 pgs. (8 1/2" x 11") Only 60¢ Ppd.

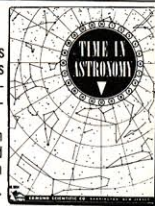

TIME IN ASTRONOMY . . . WHAT IT IS AND HOW TO USE IT

READ ABOUT:

- Selected sky objects
- Kinds of solar time
- Telling time by the stars
- Date scales and sky charts
- Star positions

Another must for amateurs. Learn the fascinating facts about time. This 18 page, well illustrated booklet tells you in simple terms how to convert from mean to standard time, explains sidereal time, and many other hard-to-understand facts about time.

With each booklet a sheet of paper is included with printed 7 1/2" diameter setting circles. Cut these out and glue to masonite, or similar material to make your own telescope setting circles. **No. 9054 Only 60¢ Ppd.**

THREE GIANT STAR & SPACE MAPS (AN INTRODUCTION TO OUTER SPACE) . . . Only \$1.25 Ppd.

Ideal wall decorations containing much valuable information. You get: **The Solar System**, a 46" x 34" color print map including solar statistics, a detailed moon map and 12 telephoto pictures; **World Star Chart**, 42" x 29 1/2", locating stars for any position on Earth; **Map of the Solar System**, 35" x 48" showing planets, zodiac, etc.

No. 9245 Set of 3 \$1.25 Ppd.

FULL COLOR, AUDUBON BIRD CHARTS ENABLE YOU TO RAPIDLY RECOGNIZE 430 BIRDS, 200 SPECIES

For students and nature lovers of all ages. These two 25" x 38" charts, excerpts from the famous "Audubon Land Bird Guide," contain 48 separate color plates by naturalist-artist Don Eckelberry. The 430 small land birds of Eastern & Central North America are grouped by color of plumage for fast identification. Beautifully printed on heavy coated stock, the charts are especially suited for wall mounting and framing. Included is a 24-page handbook with color key and valuable training method. Shipped in mailing tube.

No. 70,675 \$3.50 Ppd.

Make your field trips many times more rewarding with a pair of Edmund's 6X30 or 7X35 binoculars. Our own American-made binoculars (page 8) are an unequalled value. We also carry a complete line of imported prism binoculars (page 9).

**REDUCE GLARE,
SEE MORE CLEARLY
WITH YOUR BINOCULARS**

This polarizing attachment regulates the amount of light reaching your eyes. Excellent for viewing over water, from airplanes or any brightly lit scene. Snaps over binocular eyecaps. For American-made binoculars only. Special set of plastic eyecaps included to replace those on your binoculars.
For 7 x 50's. **No. 20,000 \$2.00 Ppd.**
For 6 x 30's. **No. 40,532 \$2.75 Ppd.**

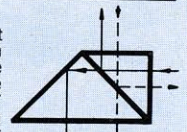

REPLACEMENT BINOCULAR EYEPIECE CAPS

Remove your chipped or broken binocular eyecaps and replace with these low-cost ones . . . also excellent for use on your homemade telescope eyepieces. Fit all standard, American binoculars (not for Japanese). For 6 x 30's. With 1" inside diameter.

No. 21,002 Package of two. \$1.00 Ppd.
For 7 x 50's. With 1 3/16" inside diameter.
No. 22,005 Package of two. \$1.00 Ppd.

TWO-WAY BEAM SPLITTER

Can be used to split the beam at either a 90° angle (dotted line in illustration) or at a 180° angle (solid line). Large, right angle prism faces measure a full 2 1/4" square . . . large enough to be used in front of television or movie cameras for special effects. Brand new, war surplus optical piece. Yours for just a fraction of manufacturing cost. Wt. 1 lb. 9 oz.
No. 50,250 \$30.00 Postpaid

WAR SURPLUS BATTERY HOLDER WITH RHEOSTAT FOR RUNNING SMALL MOTORS

Battery Holder with Clips and Rheostat. Used by the Army to operate many optical instruments. Operates from two standard flashlight batteries (not included) and has a rheostat to vary illumination or speed. Has clips for attaching to small motors, etc. Sturdily made of brass. Gov't. cost \$15.00. **No. 60,202 \$2.50 Ppd.**

Battery Holder and Rheostat. As above, but without clips. **No. 60,065 \$1.50 Ppd.**
See Page 98 for Grain of Wheat Bulbs and Sockets.

VARI-VOLTMETER FOR CONTROL OF LIGHTS & POWER TOOLS

Provides completely variable speed control from zero to full capacity of universal electric motors up to 1/2 H.P. Retains full power at all speeds or can be set to stall motor at any given load. Allows infinite control of varying brightness of incandescent light up to 1,000 watts and heating temperatures. It meters a pre-set amount of electricity. Has many uses in light industrial and home workshop applications, stages, auditoriums, photo studios. For 110 volt, 7 amp. Heavy-duty plastic body is 3 3/4" x 6 1/4" x 2" high; 68" cord.

No. 70,666 \$19.95 Ppd.

26-BLADE THICKNESS GAUGE

For those who demand fine quality tools. All blades made of highest quality, high-carbon, spring steel . . . hardened, tempered and polished. Tolerances are equal to or closer than Gov't. specifications. 26 blades 3 1/2" long are easily selected for use and can be locked in place. Sizes, .0015, .002, .0025 and .003 to .025 in thousands are permanently etched.

No. 40,692 \$2.80 Ppd.

VACUUM LIFTERS OF TOUGH NEOPRENE

Speed work in the machine shop and production line and eliminate personal injuries. Ideal for molded and flat surface materials. Flexible, tough . . . resists oils, wear and abrasion.

Heavy-Duty Sheet Metal Lifter with 4" diam. cup. Handy trigger release. **No. 70,665 \$7.50 Ppd.**

Knuckle Saver with 2-finger grip, 3/4" diam. cup. Quick release. Breaks oil adhesions easily.

No. 60,406 \$1.00 Ppd.

LOW-COST MERCURY TILT-SWITCH . . . FEATHER-TOUCH OPERATION

You can use this tiny, silent and practically indestructible tilt switch to make and break circuits of regular house electricity or small flashlight batteries. Only a 20° angular movement is required. Simply support it on a pivot. Hermetically sealed, its resistance will not vary during service. Copper-flashed, metal capsule (5/8" x 1/2" body diam.) is one electrical terminal; rod (1/2" x .040" diam.) is second. Weighs only 1.9 grams. For 120-V, AC or 1.5 V, DC. Application sheet incl.

No. 40,710 (Package of 3) \$1.25 Postpaid
No. 40,713 (Package of 10) \$3.75 Postpaid
No. 60,434 (Package of 100) \$30.00 Postpaid

SIPHON CONTAINER TRANSFERS LIQUIDS

1/2 gallon, red, polyethylene container is self acting. Quickly siphons liquids from difficult places without mess. No funnel needed. Compress and release container to fill. Siphon gas from car or boat, refuel lawn mowers and outboards. Water indoor plants, shrubs. With 5' (7/16" O. D.) flexible tube and carrying ring. 6 1/4" high x 6 1/2" diam. Weighs approximately 12 ounces. **No. 70,595 \$2.00 Postpaid**

PHOTOGRAPH UNSUSPECTING SUBJECTS

For real candid shots, attach this mounted prism to your camera. Shoot at 90°. Prism size: (see page 71) a-41mm, b-57mm, c-40mm. **No. 40,551 \$6.00 Ppd.**
